

Project WisHope

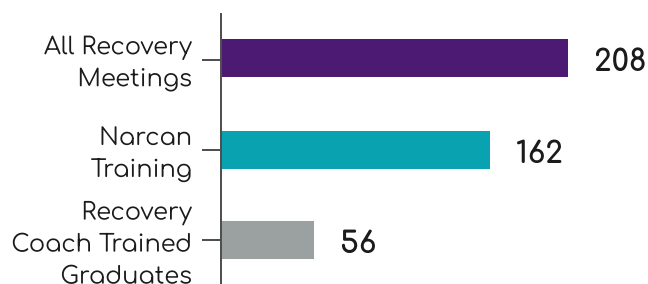

2020 Annual Report Summary

Project WisHope is a Wisconsin-based, nonprofit Recovery Community Organization offering peer recovery support services and recovery housing for individuals struggling with substance use and co-occurring mental health disorders.

Our mission is to provide resources, education, advocacy and peer support to Wisconsin's recovery community members, including those directly impacted by addiction and mental health conditions and their family members, friends and allies.

The following annual report highlights Project WisHope's performance throughout the year 2020.

2020 Trainings & Recovery Support Groups: Number of Community Participants

The Year at a Glance:

10,826 calls received through our peer support hotline

940 individuals received in-person support through our drop-in centers

264 individuals received support through our Recovery Housing Program with a stay varying from 3-6 months

56 graduates of our Peer Recovery Coach Academy Training Program

43 scholarships provided for individuals to receive free Recovery Housing
